

Catalog of the

North American Library of the India Study Circle

and the

Indian Section of the National Philatelic Research Library

1999

This listing, prepared for the North American members of the Indian Study Circle (ISC), is a preliminary effort to catalog philatelic references that are available to ISC members from two philatelic libraries in the U.S. that loan books to members through the mails: your society library and the American Philatelic Research Library (APRL). The APRL has recently introduced a computerized index of articles. Reference information from this data base is also included in this listing.

Both libraries want to help philatelists have the greatest possible access to the information that will help them in their philatelic pursuits.

I hope that as you review this catalog you make notes of any gaps in the collection and point them out so we may try to purchase needed items. If you have duplicate items in your personal collection that the library does not have or if you have a volume dealing with an area of Indian philately which no longer holds your interest, please consider donating it.

In this list, volumes held by the India Study Circle-North America are indicated by the notation "(ISC-NA)"; those held by APRL are indicated by "(APRL)" next to the title.

The next major area for expansion of the North American Library is color photocopies of exhibits, single page write-ups, and favorite or interesting items. Please send your contributions to the library.
